

c_parser_frontend::
CParserFrontend::AddSwitch
DefaultCase

```
graph LR; A["c_parser_frontend::  
CParserFrontend::AddSwitch  
DefaultCase"] --> B["c_parser_frontend::  
action_scope_system  
::ActionScopeSystem::  
AddSwitchDefaultCase"]
```

The diagram consists of two rectangular boxes connected by a horizontal arrow pointing from left to right. The left box is white with a black border and contains three lines of C++ code. The right box is light gray with a black border and contains the corresponding assembly instructions. The arrow is a solid blue line.
