

```
c_parser_frontend::  
flow_control::IfSentence  
::ConvertToIfElse
```

A diagram illustrating a transformation of C++ code. On the left, a white rectangular box contains C++ code. A blue arrow points from this box to a gray rectangular box on the right, which contains the transformed code. The transformation involves replacing the C++ `flow_control::IfSentence` with `FlowInterface` and the `::ConvertToIfElse` method with `::SetFlowType`.

```
c_parser_frontend::  
flow_control::FlowInterface  
::SetFlowType
```
