

c_parser_frontend::
operator_node::Dereference
OperatorNode::GetResultOperatorNode

```
graph LR; A["c_parser_frontend::  
operator_node::Dereference  
OperatorNode::GetResultOperatorNode"] --> B["c_parser_frontend::  
operator_node::Dereference  
OperatorNode::GetDereferencedNode  
Pointer"]
```

The diagram consists of two rectangular boxes connected by a horizontal arrow. The left box has a light gray fill and a black border. It contains three lines of text: 'c_parser_frontend::', 'operator_node::Dereference', and 'OperatorNode::GetResultOperatorNode'. A blue arrow points from the right side of this box to the left side of the right box. The right box has a white fill and a black border. It contains four lines of text: 'c_parser_frontend::', 'operator_node::Dereference', 'OperatorNode::GetDereferencedNode', and 'Pointer'.
